

WD Hearn MACHINE
ESTABLISHED 1937 TOOLS

Installations Porfolio

Over the past 27 years over 1000 Leadwell machine's have been installed into the South African engineering sector.

Leadwell V-30S

Installed at Habitat in 2012

SPECS: 48m/min, 1000rpm, CTS 20 bar, arm type toolchanger, Siemens 828D.

Leadwell LTC35CXL 12 CNC Machine tools installed from 2008-2014

SPECS: 37kw, 2F gearbox, 117 bar, 18" 3 jaw, 18kw 2 Axis motor, 150mm thick turret, Fanuc OiT.D, heavy duty tailstock.

Leadwell T-8

Installed in 2013

SPECS: Siemens 828D, 450mm Turning, 85mm bar, VDI40 Turret + C-Axis.

Leadwell V-40i(5 Axis)

Installed in May 2014

SPECS: 350mm Rotary Table, 30 POS arm ATC, 22kw, 15000rpm, Siemens 828D.

Leadwell LTC-35CXXL

Installed in 2012

SPECS: 117 bar, 15" chuck, 2000mm between centers, Fancu DiTD, 37kw spindle motor.

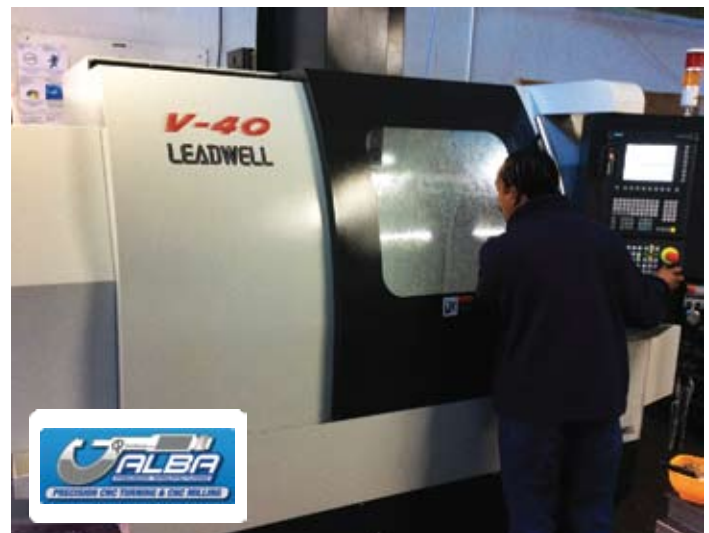

Leadwell V-20i & V-30i

Installed between 2010 & 2014

SPECS: 10000rpm, drum type 20 position, Siemens and Fancu control.

Other Leadwell installations

CAMBRO

We have installed, Commissioned and Serviced 52 CNC machines into Cambro in Cape Town over the past 10 years. In 2011 we completed the installation of 9 twin spindle twin platen multi axis lathes for the manufacturing of sensor bosses to the automotive industry.

WD Hearn carried the responsibility for the installation, programming and servicing of these machines with resounding results.

Please contact Mr Dave Brown (CEO) of Cambro for a references.

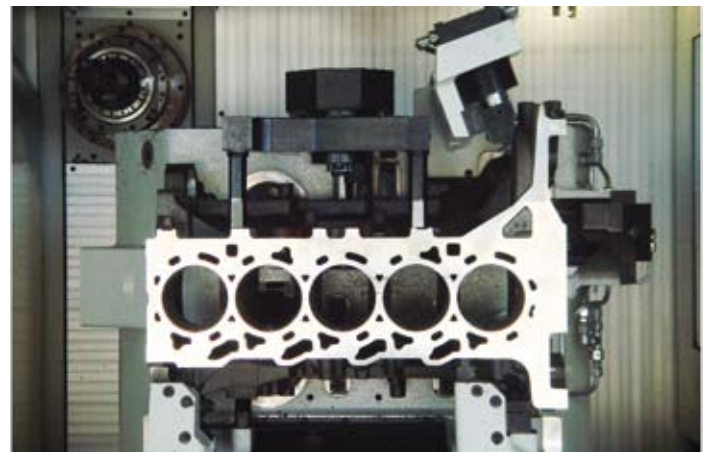

Ford Installation

In 2011/ 2012 WD Hearn Machine Tools were responsible for the installation of 80 Horizontal Machining Centers from MAG (America/Germany) into the largest engine plant in Africa. The machines and transfer lines are producing the Ford 1.4l engine blocks to be supplied throughout the globe. WD Hearn Machine Tools together with engineers from MAG handled the installation,

WD Hearn are currently handling the aftersales service of this world class project. We are responsible for stocking and managing the necessary spares to support this project.

SANCO installations into Transnet

Sanco SBM-2000L Bed Type Milling Machine

Installed into Transnet
Salt River in 2012

Sanco 16m Bridge Type Machines

Two installed into Transnet
Koedoespoort in 2013

Yu-shine installations into Transnet

Yu-shine VL-1200 ATC Vertical Boring

Installed into Transnet
Salt River in 2012

Yu-shine VL-1200 ATC Vertical Boring

Installed into Transnet
Saldanah in 2012

In 2014 WD Hearn installed a large FCW140 Horizontal floor borer, for use in Heavy Engineering. 1000m X-Axis Travel, 2200mmx2200mm Rotary Table, 140mm Spindle.

WD Hearn installed a MAG(Giddings and Lewis) Horizontal Floor Borer into Joy mining in 2012 for the production of heavy mining products.

TRANSNET

A Double Column Lexas Band Saw was installed into Transnet Uitenhage

elementsix

A Leadwell T-7iM was installed into Element 6 in 2012 along with an OLP-40 measuring probe from Renishaw.
